Afternoon Reception

The most delightful event of the week was the reception given Thursday afternoon by Mrs. Clarence James Brock and Miss Alberta Brock at their home on South McDuffie street, in honor of Mrs. William DeRoy McLean, Anderson's most recent bride. Owing to the illness of the bride she was unable to be present on this occasion.

Little Miss Theodora Brock received the cards and Misses Marie Seydt and Faith Fretwell greeted the callers. Mrs. Bruce Clinch and Mrs. Rufus Burris invited them into the living room where the hostesses received with Mrs. B. F. Mauldin, Mrs. D. A. Ledbetter and Mrs. R. S. Ligon.

Mrs. S. D. Brownlee, Mrs. Mattison, Mrs. James Shumate and Mrs. A. M. Sharp met the guests in the library and from there they were invited into the dining room where a delicious salad and ice course was served. In the dining room the mantels and buffet were banked with stately daisies. The table was placed directly under the chandelier which was elaborately decorated with ferns and daisies. A lovely daisy filled basket formed the centerpiece of the table and around this were glass compots holding mints and olives. Misses Julia Ledbetter and Louise Ligon served and Miss Edna Broyles placed a daisy on each guest.

Misses Sara Latimer of Belton, Lois Jackson of Iva and Mary Brown of Atlanta who are the guests of Miss Brock assisted in entertaining the callers.

LITTLE MISS BAILES

Little Miss Beverly Bailes celebrated her birthday Friday and invited fifty of her playmates to enjoy the afternoon with her. Games were played on the lawn and in the dining room and cake and cooling punch were served the guests. Attractive souvenir caps were given each little lady present.

Miss Lorado Bailes and Miss Azile Bailes assisted the young hostess in entertaining.

The birthday cake held twenty-one candles to mark the years of the honoree. Dr. W. H. Fraser acted as toastmaster and Tom Hill, Raymond Fretwell, Arthur Holman and Frank Brownlee

the butlers served an elaborate course dinner.

Attractive hand painted cards in green and white marked the places for the following guests: E. W. Brown, R. C. Brownlee, of Due West, W. W. Robinson, Bill Robinson, J. R. Vandiver, Albert Kay, R. S. EUREKA ITEMS.

Belton, June 27.—Miss Bessie Shirley of Long Branch and Miss Cora Shirley of Eureka have gone on a month's pleasant trip to New York points of interest.

Mrs. Joe Kay of Belton has been on a visit to Mrs. W. L. Anderson. Mr. and Mrs. J. M. Harper have returned from Clinton. They attended the marriage of their son, Cary.

Mr. Robert Harper of Atlanta is visiting his parents. Mrs. J. W. Martin and children have returned from a week's visit to Clinton.

Mrs. John Reynolds and children are visiting her sister, near Prospect church.

Miss Jennie Griffin of Anderson is home for a while recuperating. Rev. John F. Vines preached at Eureka Sunday afternoon at 4 o'clock. The sermon was fine. He held this audience well from start to finish. He will supply until a pastor is called.

Mr. and Mrs. J. W. Shirley with their son, Kyle, spent Sunday with their sister, Mrs. J. M. Ashley, near Mt. Bethel church. The Woman's Mission Society met with Mrs. L. E. Campbell Thursday afternoon. Mesdames Z. C. Balentine and J. N. Gambrell were elected delegates to the annual meeting at Honea Path in July.

French ship-builders recently launched the first vessel ever built in that country with the hull supports running fore and aft instead of with transverse ribs.

VISION OF NEW NAVY

Sir Percy Scott Predicts Submarines and Airships.

London, June 27.—The recent assertions by Sir Percy Scott that battleships are fast becoming archaic have received wide attention because was Sir Percy who did so much toward perfecting the big-gun service of the British dreadnoughts.

"The introduction of vessels that swim under water has," says Sir Percy, "entirely done away with the utility of the ships that swim on top of the water. Since warships would not dare come within sight of a coast that was adequately protected by submarines. 'No fleet can hide itself from the aeroplane eye, and the submarine can deliver a deadly attack even in broad daylight.'"

"The navy will be entirely changed; naval officers will no longer live on the sea, but either above it or under it, and the strain on their systems and nerves will be so great that a very lengthy period of service will not be advisable; it will be a navy of youth, for we shall require nothing but boldness and daring."

"In war times the scouting aeroplanes will always be high above on the look out, and the submarines in constant readiness, as are the engines at a fire station. If an enemy is sighted the gong sounds and the leash of a flotilla of submarines will be slipped."

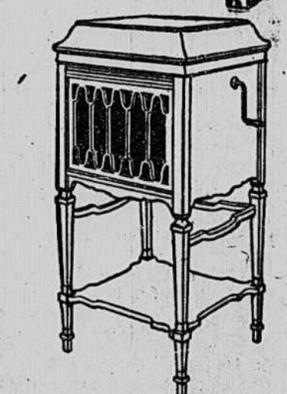

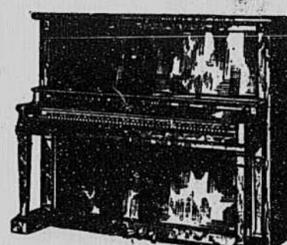

"Whether it be night or day, fine or rough, they must go out to search for their quarry; if they find her she is doomed, and they give no quarter, they cannot board her and take her as a prize, as in the olden days; they only wait till she sinks then return home without even knowing the number of human beings that they have sent to the bottom of the ocean. 'Will any battleship expose herself to such a dead certainty of destruction? I say no.'"

Georgia Love a Good Name. Atlanta, Ga., June 27.—The Southerners' love for a good name is being exemplified in a hearty response given in many sections to the race of Alex Stephens of Atlanta for the court of appeals. He bears a name interwoven with the history of the state and reflective of ability and distinguished service. Mr. Stephens is a kinsman of the Great Georgian of war time, but he is not making his race on that point but on his own ability and knowledge of the law. There is perhaps no more popular attorney in Atlanta.

IMBIBING IDEAS Strauss Will Bring Co-operation Plan to America. London, June 27.—Simon W. Strauss of Chicago, who has been spending six months in Europe conducting investigations as president of the American Society for Thrift, is to take home a number of suggestions.

One of them is the establishment of co-operative societies. He has found that the work done by them in Great Britain is second in extent only to that of the United States steel corporation, and that such societies not only save the fees of the middleman, who is thus to put productive toll, but give their members a sense of thrift. He found the societies working with great success also in France, Switzerland and Germany. The use of vacant city lots for gardening by school children, is another movement he will try to further. The American cities, most of which are not yet over-developed as are some of those in the old world usually have plenty of vacant lots, left for years in an unsightly condition until building operations are begun. Mr. Strauss urges that these be turned in-

HOW MUCH Do You Care For Your Family's Pleasure?

YOU have been promising your wife and children a Piano, Player Piano or other musical instrument for a long time. Why do you put them off when they express a desire that you provide the piano now?

Do you tell them you don't feel able? Then why do you spend as much or more to get something YOU want?

As far as that is concerned we arrange terms that leave you without an honest excuse to provide a piano or player for your family's pleasure and education.

- Pianos - \$175 up
- Players - \$450 "
- Phonographs \$25 "

to-gardens, where school children may receive valuable elementary training in thrift. In a summary of his investigations of thrift in Europe he finds Germany excelling in the economy and efficiency of government, while the Frenchman leads in individual thrift. If the two were combined in the United States, he said, the cost of living would take a big drop, and prosperity increase.
